# Program Coordinator: Group Mentoring

---

## Your Role:

As Program Coordinator, your role is to promote Group Mentoring in the program, set up the groups, assign key group mentors for each group and set them up for success.

From there, it's standard Program Coordinator management — checking in on your Key Group Mentors, answering questions, and reviewing sentiment as it comes in!

# Program Coordinator: Group Mentoring

---

## So, what does this look like in practice?

- 1 Promote Skill Based Group Mentoring.** Let your program know that you'll be launching skill based mentoring groups, furthering the mentoring offering. Use our template!
- 2 Identify and invite your Key Group Mentors.** Identify the most skilled and experienced mentors, as your preferred Key Group Mentors. Using our template, let them know they've been selected, and invite them to accept the role!
- 3 Create your Group Loops and add your Key Group Mentors.** Follow these instructions to set up your skill-based Groups. We also suggest a Key Group Mentor support group. This facilitates peer learning and support amongst your Key Group Mentors
- 4 Hold a 30 minute Info session for your Key Group Mentors.** This session should take Mentors through their role, give them the opportunity to meet each other and ask questions.
- 5 Invite your mentees to join!** It's time to launch – invite your mentees to join the groups, and admit them into the group.
- 6 Review and monitor Group Sentiment.** After 30 days, Mentoring Quality Survey feedback will start to appear in Sentiment. Use this data to support participants and measure success upon completion.

# Resources

# Promoting Group Mentoring

---

Let your program know that you'll be launching skill-based mentoring groups.

Mentees will have the opportunity to join these groups, once they've been made live.

**When:** This is the first thing you need to do. Send at least 1 follow up!

**Who?** We recommend sending this to everyone in the program.

**Tool Tip:** Use [Bulk Message](#)

*We're launching group mentoring!*

*The groups will be based on what you've told us you want to learn as mentees and can offer as mentors. Initially, the groups will run for 6 months.*

*We'll be selecting the most experienced mentors in these skill areas to facilitate the groups as 'Key Group Mentors' – if this is you we'll reach out to confirm you're interested before making the Groups.*

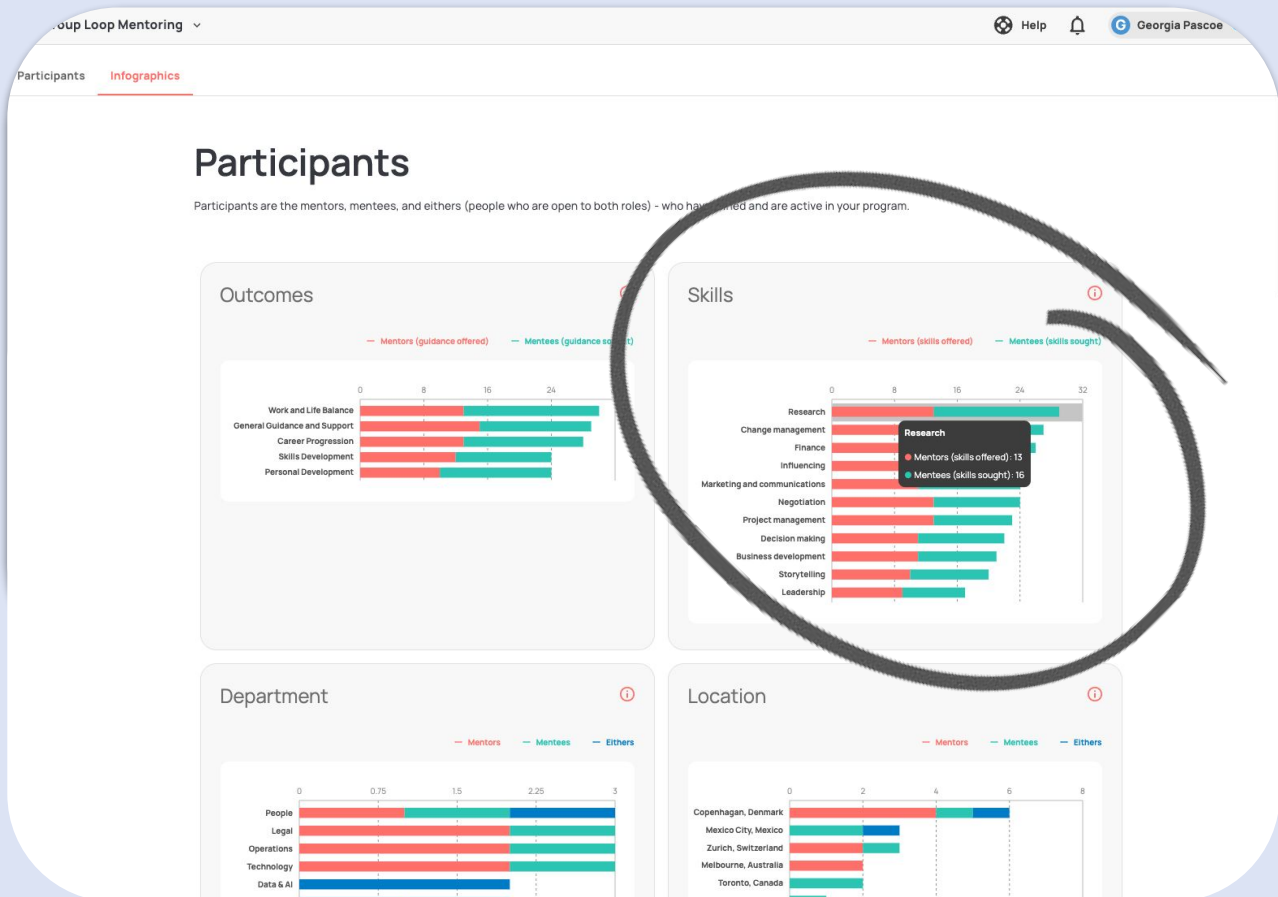

*If you don't want to participate, that's okay, you can make yourself unavailable*

# Creating Your Groups

## 1 Finding the most in demand skills for your program

- Navigate to Participants and select the Infographics Tab
- Note down the most in demand skills

**Tip:** For programs with less than 100 participants, 5 groups is likely enough. For programs with more than 100 participants, you might want to select 10 skills.

In this example, our top 5 skills are:

- Research
- Change Management
- Finance
- Influencing
- Marketing and communications

# Creating Your Groups

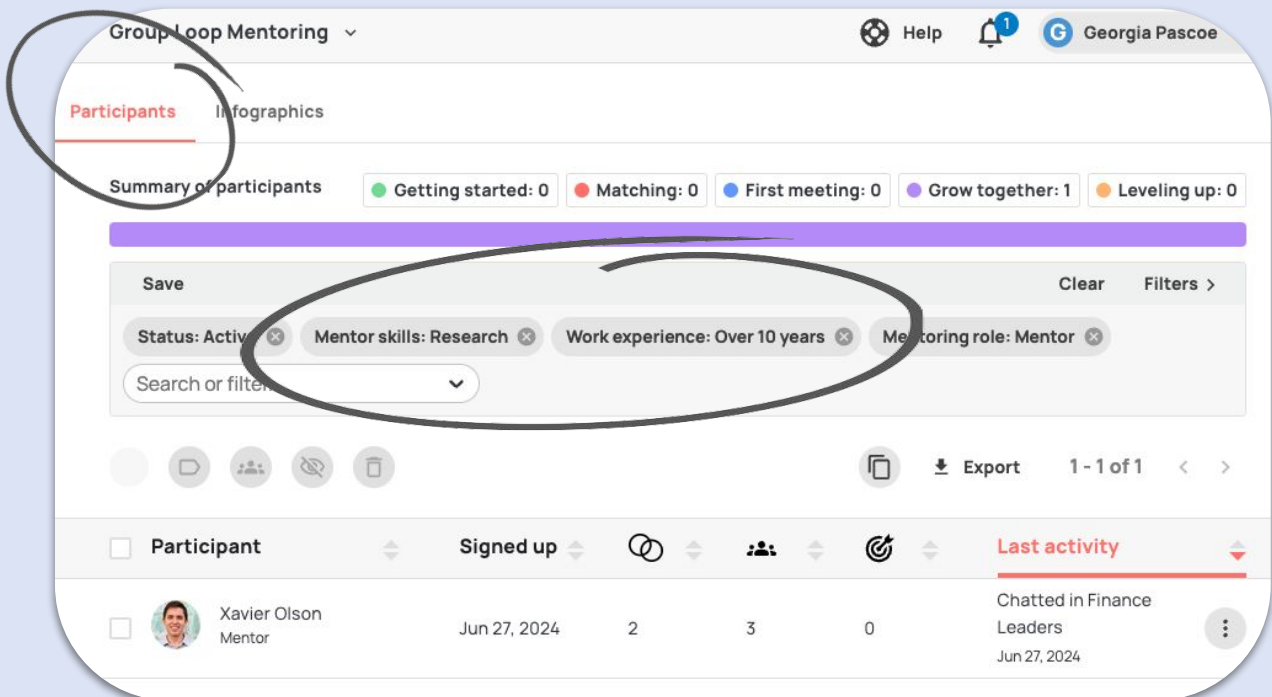

## 2 Finding your Key Group Mentors

We want to find the most experienced mentors, with the skills on your list.

From the Participant Tab, apply the below filters:

1. Mentor Skills: [select the first skill]
2. Experience: [select the highest level of experience]

This may return more than one option. You may choose to invite multiple eligible mentors for a specific skill-set (to gauge interest), or one at a time.

The screenshot shows the 'Group Loop Mentoring' interface. The 'Participants' tab is selected, and the 'Summary of participants' section displays a progress bar with the following status: Getting started: 0, Matching: 0, First meeting: 0, Grow together: 1, and Leveling up: 0. Below this, a filter bar is visible with the following filters applied: Status: Active, Mentor skills: Research, Work experience: Over 10 years, and Mentoring role: Mentor. A table of participants is shown below, with the following data:

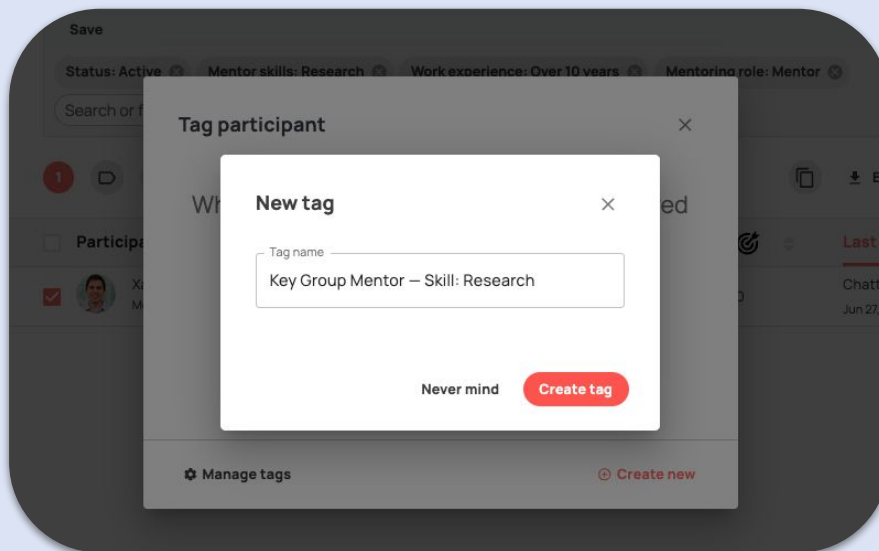

Participant	Signed up				Last activity
<input type="checkbox"/>  Xavier Olson Mentor	Jun 27, 2024	2	3	0	Chatted in Finance Leaders Jun 27, 2024

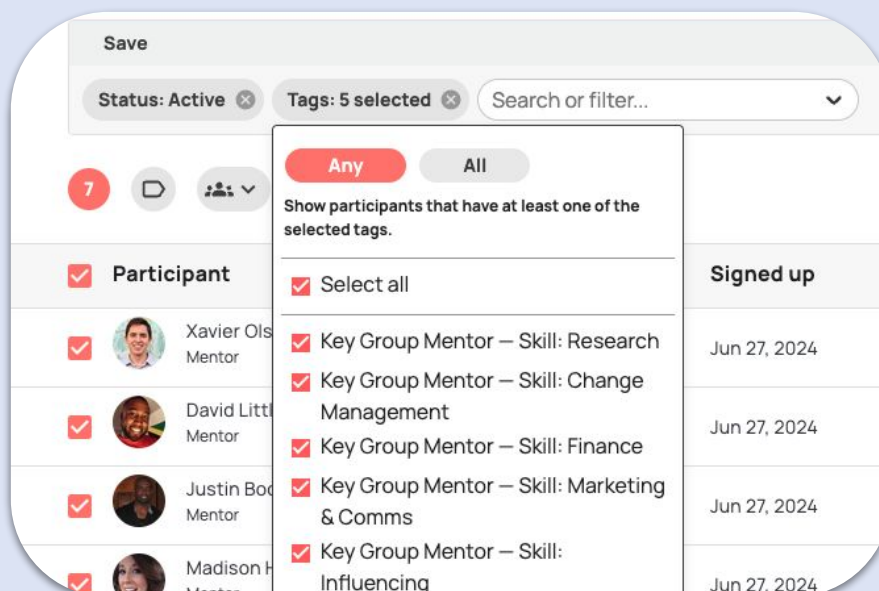

# Creating Your Groups

## 3 Tag your eligible Key Group Mentors

Select the eligible Key Group Mentors, and create a Tag for each skill set.

Repeat Steps **2** + **3** tagging eligible mentors for each skill.

# Creating Your Groups

---

4

## Invite your Key Group Mentors!

**Filter for Tags:** Select all your Key Group Mentor tags

**Bulk Select:** All Participants

Send them the below message, inviting them to participant as your Key Group Mentors!

*We recently announced the launch of Mentoring Groups. Congratulations! As one of the most experienced in your field, you've been selected as a Key Group Mentor for our skill-based mentoring groups.*

*Group mentoring is a powerful tool for personal and professional development that involves many people with a common purpose or goal. The group will have up to 10 mentees and a Key Group Mentor (hopefully you!) who acts as a guide and leader. Don't worry - you're not expected to do it all, rather prompt, guide and provide insight as the more experienced person in the group.*

*If you accept the position, you'll be given a Key Mentor Guide to ensure you have the resources to run your group effortlessly. Additionally, all Key Group Mentors will be Grouped together with your Program Coordinator, so you can share resources, ask for help and have a direct line of support from your Program Coordinator should you need.*

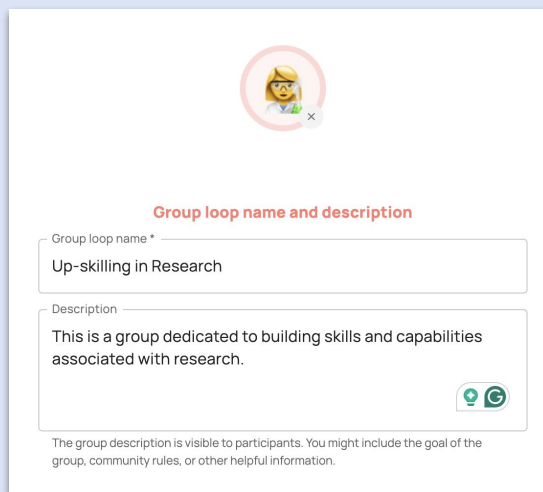

*Ready to learn more? Just reply in this chat here!*

# Creating Your Groups

## 4 Create Skill Groups & Key Group Mentor Support Group

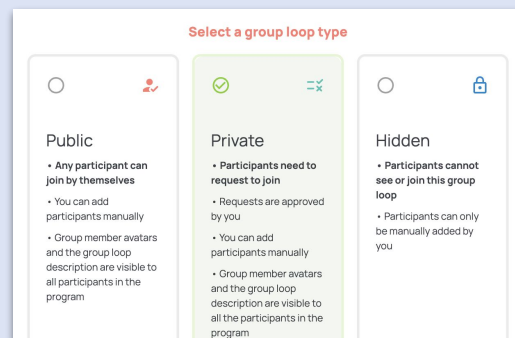

Now that you know who your Key Group Mentors are, create a group for each skill, and add the relevant mentor to the group.

### 1. Create Group: Name and details

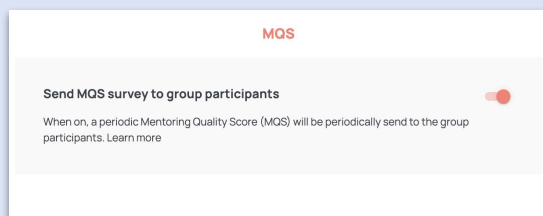

The screenshot shows a form titled "Group loop name and description". At the top, there is a circular icon with a person wearing a hard hat. Below the icon, the text "Group loop name" is followed by a text input field containing "Up-skilling in Research". Underneath, the "Description" field contains the text "This is a group dedicated to building skills and capabilities associated with research." A small icon of a speech bubble with a checkmark is visible at the bottom right of the description field. A note at the bottom states: "The group description is visible to participants. You might include the goal of the group, community rules, or other helpful information."

### 3. Select Type: Private

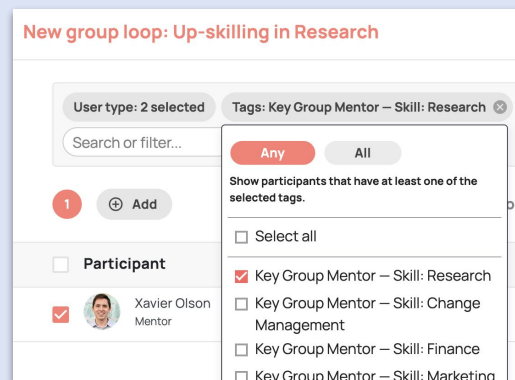

The screenshot shows a dialog titled "Select a group loop type" with three options: "Public", "Private", and "Hidden". The "Private" option is selected and highlighted in green. The "Public" option has a red lock icon and lists: "Any participant can join by themselves", "You can add participants manually", and "Group member avatars and the group loop description are visible to all participants in the program". The "Private" option has a green checkmark and lists: "Participants need to request to join", "Requests are approved by you", "You can add participants manually", and "Group member avatars and the group loop description are visible to all the participants in the program". The "Hidden" option has a blue lock icon and lists: "Participants cannot see or join this group loop" and "Participants can only be manually added by you".

### 2. Turn on: MQS

The screenshot shows a toggle switch labeled "MQS". Below the toggle, the text reads: "Send MQS survey to group participants" followed by a red toggle switch that is currently turned on. Below this, a smaller line of text says: "When on, a periodic Mentoring Quality Score (MQS) will be periodically send to the group participants. Learn more".

### 4. Add Key Group Mentor: relevant to Group Topic

The screenshot shows a dialog titled "New group loop: Up-skilling in Research". At the top, it says "User type: 2 selected" and "Tags: Key Group Mentor – Skill: Research". Below this is a search bar "Search or filter...". There is a red "1" in a circle next to an "Add" button. A dropdown menu is open, showing "Show participants that have at least one of the selected tags." with options "Any" (selected) and "All". Below the dropdown, there are checkboxes for "Select all" and "Participant". Under "Participant", there is a list of Key Group Mentors with checkboxes: "Xavier Olson Mentor" (checked), "Key Group Mentor – Skill: Research" (checked), "Key Group Mentor – Skill: Change Management", "Key Group Mentor – Skill: Finance", and "Key Group Mentor – Skill: Marketing".

### 5. Create Key Group Mentor Support Group

This allows you to easily communicate with each other, provide support and share resources.

**Type:** Hidden (so other participants can't request to join)

**Who:** All Key Group mentors & the Program Coordinator

# Info Session Guide: for KGMs

---

**Hold a 30 minute Info session for your Key Group Mentors.** This session should take Mentors through their role, available resources, give them the opportunity to meet each other and ask questions.

**Introductions**  
10 mins

Each KGM to Introduce themselves, their Skill, and their experience to-date with that Skill.

**Key Group Mentors: Your Role**  
5 mins

Inform them of their role. You can find this information in the Key Group Mentor Guide.

**Resources**  
5 mins

Share the resources available to them in the Key Group Mentor Guide: **Session Guides, Engagement Guidelines, Self-Introduction templates, Suggested Summaries, Weekly Questions**

**Key Group Mentor – Group**  
5 mins

Let them know they will be added to a support group with each other and you as the Program Coordinator.

**Questions**  
5 mins

Time for questions, concerns, ideas!

# Promote Group Mentoring

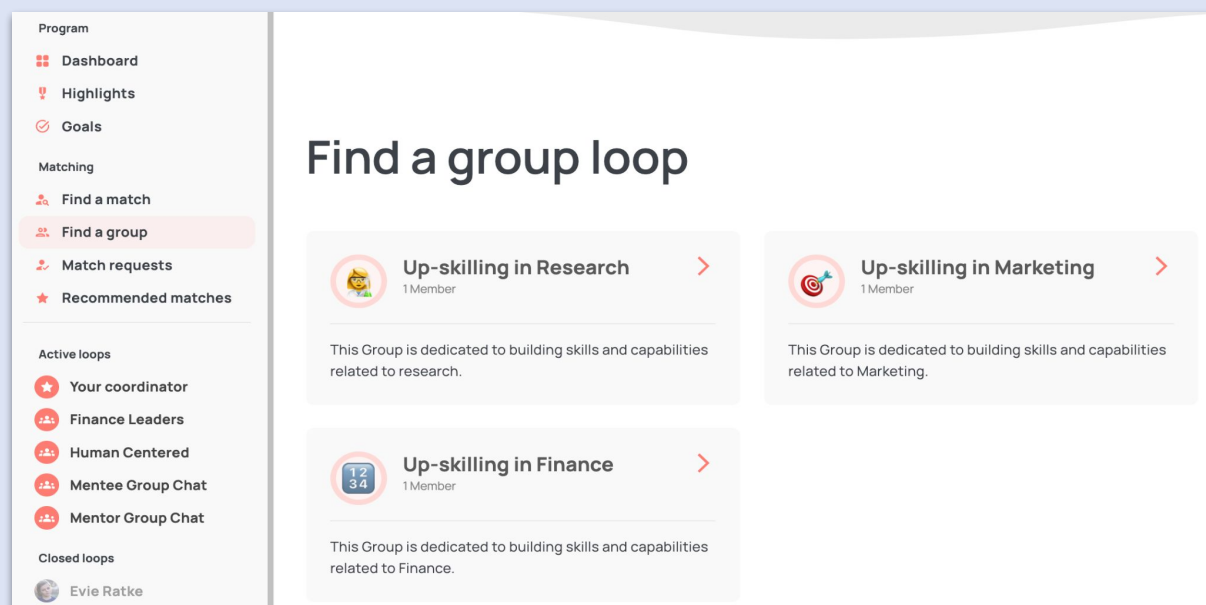

Using the template below, Invite Mentees to request to join the new Skill-Based mentoring groups! If you find you're getting an influx of requests for a specific skill, consider making a second group for the same skill, with another Key Group Mentor!

-  **When:** Once your groups are live, and your KGM's are ready.
-  **Who?** All mentees in the program.
-  **Tool Tip:** Use [Bulk Message](#)

*Skill-based mentoring groups are live! The skills we're focussing on are **[insert skills]***

*Each group will be guided by an experienced mentor and will run for 6 months. You can expect to learn from your Mentor, your peers, and your own reflections.*

*Places in each group are limited and it's first in best dressed! You can request to join via "Find Group Loop".*

**Program**
